

Environmental Policy Statement 2014 -2015

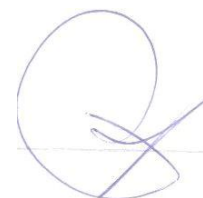

The Dreams Resort is committed to significantly minimize the hotel's environmental footprint whilst exceeding hospitality standards. The management team will comply with all Egyptian environmental legislation and endeavors to achieve recognized "best practices" relating to the management, operation and activity of the Hotel.

Dreams Resorts believes it has a responsibility to the communities in which it operates as well as to its guests, investors, team members, and business partners.

We:

- **Educate** and influence all internal and external stakeholders in saving water and energy, reef preservation and sustainable practices
- **Reduce energy consumption** (*by upto 35%*) and track performance
- **Reduce water usage** and recycle
- **Minimize waste** by recycling and reusing materials
- **Implement sustainable procurement** practices, sourcing local suppliers (Cairo) and considering energy efficient equipment
- **Participate in local community environmental** activities by choosing and promoting local products and services in preference to imported ones. We offer guidance on appropriate behavior regarding the Egyptian culture and encourage participation in local festivals/ celebrations
- **Seek environmental best practices**
